\*Editor-in-Chief of the [ICMEEA]. Email: [yueyang@xjtu.edu.cn](mailto:yueyang@xjtu.edu.cn)

All of the articles in this proceedings volume have been presented at the [ICMEEA] during [7.26-7.28, 2024] in [Singapore]. These articles have been peer reviewed by the members of the [Academic Committee] and approved by the Editor-in-Chief, who affirms that this document is a truthful description of the conference's review process.

## 1. REVIEW PROCEDURE

The reviews were [double-blind]. Each submission was examined by [2] reviewer(s) independently.

[Process of review: A preliminary review was conducted by conference editors to make sure all papers are included in the scope of this conference, if not, the submission will be rejected or suggested to other applicable conferences. The author names, emails and affiliations were removed constantly when they are sent to conference committee members(reviewers) for peer-review.

Each reviewer will be asked to fill in the reviewing form and 8 criterias in total are to be scored (Y/N), including:

- ① Originality: Is this article relevant to the subject coverage of the conference?
- ② Motivation: Does the problem considered have a sound motivation?
- ③ Repetition: Have significant parts of the manuscript already been published?
- ④ Content: Does the article include the following parts: Author information, Abstract, Keywords, Introduction, Methods and Materials, Conclusions, References
- ⑤ Conclusion: Could the research contribute to relevant fields?
- ⑥ Reference: Is the reference adequate, necessary and well cited?
- ⑦ Language: Are the presentation and language accurate and concise or still needs further improvement?
- ⑧ Diagrams, figures, tables and captions: Are they essential and clear?

An overall evaluation or Detailed reviewing result (if any) will be given. In the end of the form, the final decision of Accept/Revision/Reject should be selected. When it is marked by Revision, we will have a double check of the revised papers before acceptance.]

## 2. QUALITY CRITERIA

Reviewers were instructed to assess the quality of submissions solely based on the academic merit of their content along the following dimensions

1. Originality: Is this article relevant to the subject coverage of the conference?
2. Motivation: Does the problem considered have a sound motivation?
3. Repetition: Have significant parts of the manuscript already been published?
4. Content: Does the article include the following parts: Author information, Abstract, Keywords, Introduction, Methods and Materials, Conclusions, References
5. Conclusion: Could the research contribute to relevant fields?
6. Reference: Is the reference adequate, necessary and well cited?
7. Language: Are the presentation and language accurate and concise or still needs further improvement?
8. Diagrams, figures, tables and captions: Are they essential and clear?

In addition, all of the articles have been checked for textual overlap in an effort to detect possible signs of plagiarism by the publisher.

## 3. KEY METRICS

<i>Total submissions</i>	153
<i>Number of articles sent for peer review</i>	129
<i>Number of accepted articles</i>	72
<i>Acceptance rate</i>	47.1%
<i>Number of reviewers</i>	6

## 4. COMPETING INTERESTS

Neither the Editor-in-Chief nor any member of the Scientific Committee declares any competing interest.
