All of the articles in this proceedings volume have been presented at the *International Conference on Economics, Business and Economic Education Science (ICE-BEES) 2024* during *12-13 June 2024* in *Semarang*. These articles have been peer reviewed by the members of the *Scientific* and approved by the Editor-in-Chief, who affirms that this document is a truthful description of the conference's review process.

1. REVIEW PROCEDURE

The reviews were *double-blind*. Each submission was examined by *at least 2* reviewer(s) independently. *The conference submission management system was Easy-chair All manuscripts submitted to this conference undergo a selection and assessment process by the Organizer. The conference applies this process as the preliminary selection to determine whether the manuscripts have conformed to the conference's submission guidelines, focus and scope and whether they are of excellent academic quality. The language check also becomes essential to our screening at this stage. Authors must ensure that the conference editors and reviewers fully understand the academic content of their paper. The review process applies the double-blind peer review method, in which neither authors nor reviewers know each other's identities. When the manuscript has passed the desk review stage, editors will deliver a manuscript to two reviewers who are experts in the field of the submitted manuscript. The task of reviewers is to assess originality, clarity of presentation, and contribution to the legal knowledge. Typically, reviewers will complete the review process within three weeks. Manuscripts that did not successfully pass the desk review process will not proceed to this stage and will be rejected.*

2. QUALITY CRITERIA

© The Author(s) 2024

K. B. Abiprayu and A. B. Setiawan (eds.), *Proceedings of the International conference of Economics Business and Economics Education Science (ICE-BEES-24)*, Advances in Economics, Business and Management Research 298, https://doi.org/10.2991/978-94-6463-522-5_1

Reviewers were instructed to assess the quality of submissions solely based on the academic merit of their content along the following dimensions

1. Relevance of the article's content to the conference's scope and themes;
2. Clear evidence of the research's originality, innovation, and timeliness;
3. Rigorous methodology, analyses, and results;
4. Compliance with ethical standards and codes of conduct pertinent to the research field;
5. Clarity, coherence, and precision in language and expression, including figures and tables.

In addition, all of the articles have been checked for textual overlap in an effort to detect possible signs of plagiarism by the publisher. Authors must ensure that the manuscript submitted to this conference has been proofread. Plagiarism and self-plagiarism are prohibited. Each author is responsible for ensuring that the manuscript submitted to this conference is original and plagiarism free. It is our routine procedure to run all submissions through plagiarism detection software. The result of manuscript screening should be 25% of the maximum similarity. Also, the Conference Editor has the right to decline the submission when it is found that the manuscript is detected with plagiarism.

3. KEY METRICS

<i>Total submissions</i>	123
<i>Number of articles sent for peer review</i>	85
<i>Number of accepted articles</i>	66
<i>Acceptance rate</i>	53.65%
<i>Number of reviewers</i>	10

4. COMPETING INTERESTS

Some of the authors (in this case, name them) were supervised by the Editor-in-Chief, who has recused herself from handling their submissions and has delegated them to colleagues with no personal interests in them.
