*Editor-in-Chief of the **ICoSTAS EAS 2024**. Email: sapteka@pnb.ac.id

All of the articles in this proceedings volume have been presented at the *International Conference on Sustainable Green Tourism Applied Science (ICoSTAS) Engineering Applied Science (EAS) 2024* on 8 – 9 November 2024 in *Arya Duta Hotel, Bali, Indonesia*. These articles have been peer-reviewed by the members of the *Indonesian Society of Applied Science (ISAS)* and approved by the Editor-in-Chief, who affirms that this document is a truthful description of the conference's review process.

1. REVIEW PROCEDURE

The reviews were *double-blind*. Each submission was examined by 2 reviewer(s) independently.

The conference submission management system was EDAS Conference and Journal Management System

The submissions were first screened for generic quality and suitability. After the initial screening, they were sent for peer review by matching each paper's topic with the reviewers' expertise, taking into account any competing interests. A paper could only be considered for acceptance if it had received favourable recommendations from the two reviewers.

Authors of a rejected submission were given the opportunity to revise and resubmit after addressing the reviewers' comments. The acceptance or rejection of a revised manuscript was final. The reviewers are recused from the handling of papers by closely related authors, and steps are taken to reduce unconscious bias

2. QUALITY CRITERIA

Reviewers were instructed to assess the quality of submissions solely based on the academic merit of their content along the following dimensions. The pertinence of the article's content to the scope and themes of the conference; Clear demonstration of originality, novelty, and timeliness of the research; Soundness of the methods, analyses, and results; Adherence to the ethical standards and codes of conduct relevant to the research field; and Clarity, cohesion, and accuracy in language and other modes of expression, including figures and tables. In addition, all of the articles have been checked for textual overlap to detect possible signs of plagiarism by the publisher.

In addition, all of the articles have been checked for textual overlap in an effort to detect possible signs of plagiarism by the publisher.

3. KEY METRICS

<i>Total submissions</i>	77
<i>Number of articles sent for peer review</i>	77
<i>Number of accepted articles</i>	77
<i>Acceptance rate</i>	100%
<i>Number of reviewers</i>	11

Neither the Editor-in-Chief nor any member of the Scientific Committee declares any competing interest.

The conference was partially funded by Politeknik Negeri Bali (PNB), a polytechnic that has also supported or participated in some of the research submitted to the conference. All authors and reviewers are required to disclose their funding sources, and those research works that were funded by PNB have been reviewed by members of the Scientific Committee with no personal interests in the company.
