After the reform and opening, China has carried out a series of economic reforms, from the original plan of economic reform in the public ownership as the main body, a variety of private ownership economy model of economic development, in this case, China's market environment can be established, and in the ensuing development process to the gradually perfect. The first stage is the initial stage of the sports dance competition. We investigate, analyze and study the relevant literature and the existing data. At present, from the academic point of view, the initial stage of the development of sports dance competition in China is defined as 1991 - 1999. We are such a division reason in 1991 May China Dance Sport Association officially registered, and after this year the establishment of China held the first national

sports dance championship. After that, we have a nationwide sports dance championship every year. Until 1999, China took nine times. However, in this period, there are no other sports dance competitions except the sports dance championships. Therefore, it can be said that during this period, the development of sports dance competition in our country is still relatively simple, so it can be summarized as the preliminary stage. The second stage is the comprehensive stage of the development of sports dance events in china. In 2000, China's sports administration in order to promote the development of dance competitions, issued a series of sports dance documents, these documents carried out a detailed plan for China's sports dance competition, and to develop methods and measures, which are to provide protection for the development of China's sports dance competition. Therefore, we can conclude that there is a comprehensive development stage. The third stage is the reform stage of sports dance competition. From 2008, China's sports dance competition has entered the stage of reform. The reason why we call it the reform phase is that since 2008, China has a variety of sports dance competitions held more frequently, a variety of sports dance sports also showed the characteristics of popularization and maturity. Therefore, in order to avoid all kinds of sports dance competition is too frequent, appear heavy, but also in order to increase the quality of China's sports dance competition, China's sports dance competition for a series of reforms. Therefore, we can be explained as the reform stage.[2]
